

The NEW 2015 version of the Science Olympiad Mobile Rules App is NOW available in the Google Play and iTunes Stores. Each Division (B and C) will have its own app (actually a lot more like an e-book!), with each mobile manual available for a lower-than-print cost of \$3.99.

Description:

- The Science Olympiad Rules are essential tools for students, parents, teachers and supervisors involved in the largest team STEM competition in the US
- These on-the-go Division B and C Rules are replicas of the printed rules found in the 2015 Science Olympiad Rules Manuals
- The app contains links to all 23 Rules organized by standards-aligned categories: Life, Personal & Social Science, Earth & Space Science, Physical Science & Chemistry, Technology & Engineering and Inquiry & Nature of Science
- Links to all the most popular sections of the Science Olympiad website let you travel in and out of the app to check Policies, FAQs, Rules Clarifications, General Rules and more
