

## December 13 E-mail

**Event Supervisors:** Please have your ES register online as soon as possible. Please wait to register assistants. See list below of registered ES's.

**NorCal State/Regional Rule:** There was an arbitration from last year that was not reviewed in the coaches meeting. Last year a team brought to an event two pages of notes taped together when the rules stated "one page of notes" can be used. After much discussion, the NorCal Regional Directors made the following determination for State and I am adopting for our Regional tournament:

One page of notes: If a team chooses to use two sheets of paper secured together, then the two pages must be laminated and cannot have anything attached (i.e., "flaps" attached).

**Event Boards** are now posted on the website under the "Regional" tab. Robot Arm had just 13 teams participate last year, so there are fewer time slots. Again, the reason the schedule is different from National is so that Event Supes have the opportunity to observe the tournament. Also, so that the Awards ceremony can be held on the same day soon after the end of the tournament due to the time needed to score. **If your event is in more than two time slots, AND your Event Supe AND Assistants want their time extended, please let me know asap!**

The following Events **HAVE REGISTERED Event Supervisors:**

### **Div B:**

Bottle Rockets  
Disease Detective  
Dynamic Planet  
Ecology  
Fast Facts  
Hovercraft  
Invasive Species  
Mission Possible

### **Div C:**

Astronomy  
Disease Detective  
Hovercraft  
Material Science  
Rocks & Minerals
